EXPERIENCE

*Freelance | Self-Employed, **Student***

Sep 2024 - Present

As a self-employed freelance developer, I build modern, responsive web applications using the MERN stack while continuously improving my skills through real-world projects. I focus on creating clean user interfaces with React, developing reliable backend APIs with Node.js and Express, and managing data efficiently with MongoDB. I work independently with clients to understand their requirements, deliver functional solutions, and gain practical experience in full-stack development alongside my engineering studies.
